GLOBAL CONTAINER TERMINALS

Synchronized logistics.

At Global Container Terminals, we do more than move boxes. We synchronize logistics with the precision, dedication, and innovation that our customers have relied on for over a century.

4

advanced terminals on the East & West Coasts of North America

2

gateway ports to global trade lanes and local markets

1

seamless, reliable partner with a century of experience

GCT Vanterm

GCT New York

Leaders in innovation.

Our continued investments in people, superior technology, and terminal upgrades have made us leaders in marine transportation innovation and reliability. Our forward-thinking vision of terminal operations in North America and unsurpassed performance have built gateways, moved the industry forward, and propelled our customers to new heights.

- Leading North American Operator with semi-automation
- Most advanced and largest on-dock rail facility in North America
- The first to successfully and seamlessly integrate truck reservations
- Committed, dedicated workforce and a stable labor environment
- Superior vessel productivity and truck turn-times

Anticipating the needs of tomorrow.

When it comes to marine transportation, no other operator is as in sync with the evolving needs and expectations of the industry as Global Container Terminals. Our dedication to every detail, phase, and nuance of the process creates a seamless journey for our customers and their cargo. From day-to-day operations to big-picture expansion projects, we are continually innovating our processes and challenging ourselves to provide the world-class service that has made us the terminal operator of choice in North America.
