CONTAINER
TERMINALS
CANADA

Engineered efficiency. Unsurpassed precision.

With two terminals located in the Port of Vancouver, GCT Canada delivers an innovative, customer-focused approach to marine transportation backed by more than a century of experience and world-class service. Committed to the growth of the Vancouver gateway, GCT Canada has built strategic relationships with key supply chain partners to offer customers the velocity necessary to succeed in today's competitive market.

2 strategically located terminals

Largest ship-to-rail discharge facility in North America

Convenient access to major Asia-Pacific trade lanes

Strong rail agreements with CN and CP

Full truck reservation systems and leading times in the industry

GCT Vanterm | GCT Deltaport

GCT Deltaport

Technology That Delivers

Located in the outer harbour of the Port of Vancouver, GCT Deltaport is Canada's flagship container terminal and the most advanced and largest on-dock rail facility in North America. Designed with the technology to handle the largest vessels and surges with ease and keep pace with the ever-changing needs of the industry.

- ✓ Most advanced on-dock rail in North America
- ✓ 1.9 million TEU annual rail capacity
- ✓ Serviced by two Class I railways with the option to add a third
- ✓ 21+ key rail destinations in Canada and the U.S.
- ✓ Unsurpassed surge capacity + fastest transit times
- ✓ Cutting edge terminal technology and software
