Terms and Conditions

Utilizing GCT Canada Web Services Portal is conditional on your acceptance of and continued compliance with the following terms and conditions. By accessing or using this Portal, you warrant and represent that you are aware of these terms and conditions, and agree to be bound by them. If you do not agree to these terms and conditions, you should not access or otherwise use this Portal. Users agree to abide by GCT Canada regulations and take responsibility for all activity under the carrier credentials, including but not limited to protection of storage fees, Terminal Gate Efficiency fees, and Flex Appointment Service fees. For full terms and conditions, please review “GCT CANADA LIMITED PARTNERSHIP WEB PORTAL TERMS AND CONDITIONS” located on the homepage under Quicklinks.

Visit GCT Canada website for more information on Flex Appointment Service (FAS) and Terminal Gate Efficiency Program (also known as Gate Compliance) documentation, and Tariff rates. Details can be found under Carriers & Truckers.

Web Browsers

Lynx web services are supported by Internet Explorer 10 or higher (I/E10+), Google Chrome, and Firefox.

Using GCT Canada SSLVPN

Secure Sockets Virtual Private Network (SSLVPN) provides secure communications for data transmissions to GCT Canada LP Web Services.

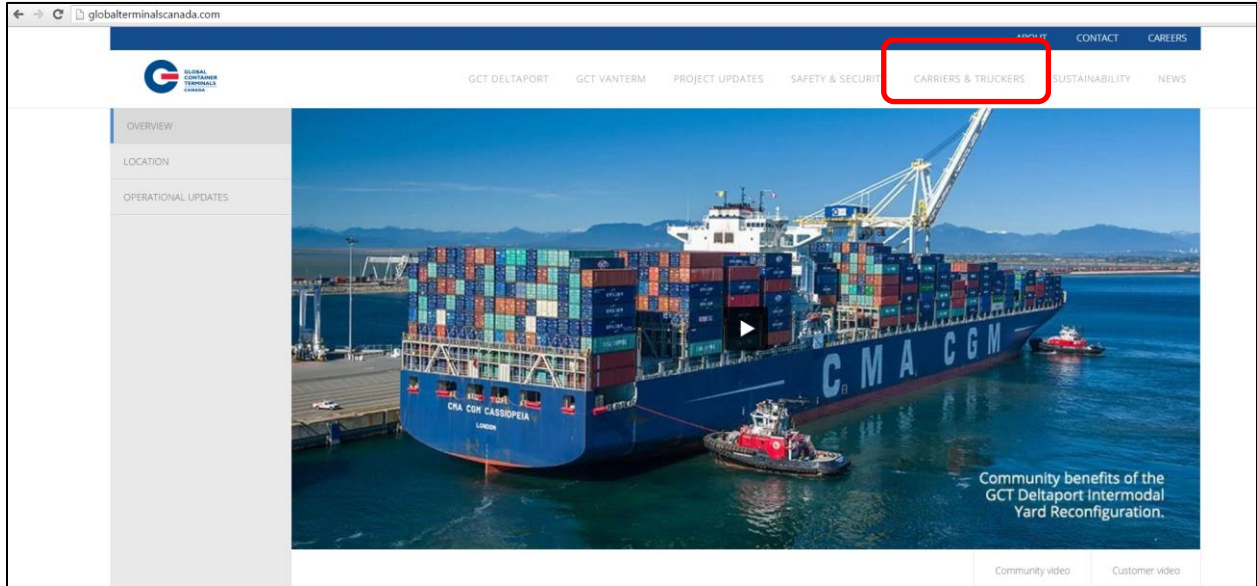

New Users' Guide

To request a new login, contact our Helpdesk (helpdesk@globalterminals.com) with the below information:

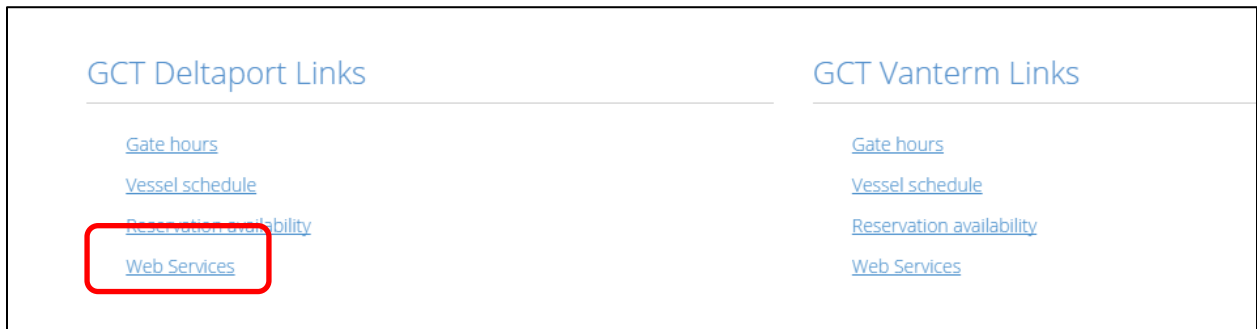

- Contact Name
- Company Name
- Address
- Email Address
- Telephone and Fax numbers
- Company Type (ocean carrier, trucking company, customs broker, freight forwarder)
- Terminal Required: GCT Deltaport
- Trucking Companies: Port Metro Vancouver Truck Licensing System number (TLS)

Accessing Web Services

Once you have received your credentials from GCT Canada for the SSLVPN for GCT Deltaport you will be able to access Web Services via the website:
www.globalterminalsCanada.com

Select Carriers & Truckers > GCT Deltaport Links > Web Services

Web Services Remote Access Logon for GCT Canada

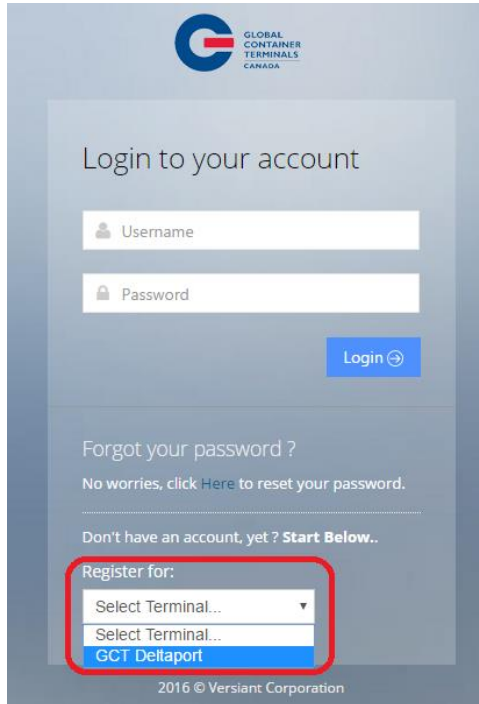

Enter the Username and Password

The image shows a login form titled "Remote Access Logon for GCT Canada". It features the GCT Canada logo in the top left corner. The form contains two input fields: "Username:" with the text "ACME" entered, and "Password:" with a masked password of ten asterisks. A "Logon" button is positioned below the password field.

Creating an User Lynx Account

To create a new user for Lynx, select below drop down menu.

The screenshot shows the login and registration interface for the Lynx system. At the top left is the Global Container Terminals Canada logo. The main heading is "Login to your account". Below this are two input fields: "Username" and "Password". A blue "Login" button with a right-pointing arrow is positioned to the right of the password field. Below the login fields, there is a link for "Forgot your password?" with the text "No worries, click [Here](#) to reset your password." Below that, it says "Don't have an account, yet? **Start Below..**". Underneath is a "Register for:" section with a dropdown menu. The dropdown menu is open, showing two options: "Select Terminal..." and "GCT Deltaport". The "GCT Deltaport" option is highlighted in blue. At the bottom of the page, it says "2016 © Versiant Corporation".

Username – A unique name that will be used to log into the account

Password – The password must be 7 characters or greater. It must consist of two series of letters and numbers separated by a symbol

Email – A contact email account. This email will be used if you forget your password

Phone – A valid telephone number

First Name – User's first name

Last Name – User's last name

Friendly Name – This may be the same as your user name

Job Function – The user's job title at the company

Select Access Type – Select from the drop down menu: 3rd Party (Broker/ Freight Forwarder), Steamship Line , or Trucker
Note: Customs or Terminal Employee account submissions will be automatically rejected

Select Security Question – Select from the drop down menu a question to be used if the user forgets the login password

Security Answer – Enter an answer to be used if the user forgets their password

Back – To cancel registration process and return back to the homepage

Sign Up – To continue with registration

The screenshot shows a 'Sign Up' form for Global Container Terminals Canada. The form is titled 'Sign Up' and asks the user to 'Enter your account details below:'. The fields are as follows:

- Username: ACME
- Password: [Redacted]
- Confirm Password: [Redacted]
- Email: acme@acmeterminals.com
- Phone: 1(888)342-3385
- First Name: John
- Last Name: Acme
- Friendly Name: ACME
- Job Function: Dispatch
- Access Type: Trucking Company
- Security Question: What was the color of your fir
- Security Answer: red

At the bottom of the form, there is a 'Back' button and a 'Sign Up' button. The footer of the page reads '2016 © Versiant Corporation'.

Steamship Line Selection: Enter the associated Shipping Line

Shipping Line Selection:

Please key in your Shipping Line name for each terminal. Shipping Line options will appear as you type.

If you do not see your Lines listed, please send an email to helpdesk@globalterminals.com and specify your Shipping Line and Terminal.

GCT Deltaport:

Once all information has been entered, select Sign Up to prompt below confirmation

Your registration has been submitted and is currently pending approval.
You will receive an email notification once it has been approved.

A confirmation email would also be sent to the user provided email address. Please allow up to 5-10 minutes or check your junk folder.

This email (including any attachments) may contain information that is privileged and confidential. If you are not the intended recipient, please delete this e-mail and notify us immediately.

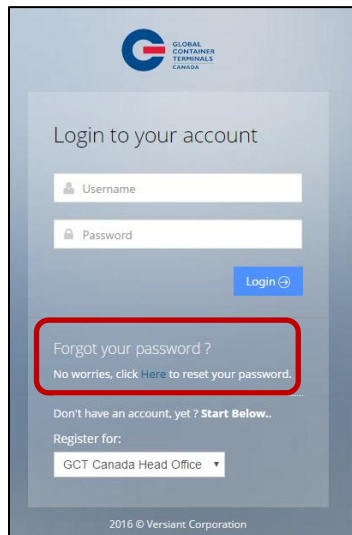

GCT Canada will review the User's credentials, please note this may take up to 2 business days to process.

Whether the application was approved or rejected, the user will receive an email at the address provided by the user.

- a.) Approved – Lynx CSP User Account is approved
- b.) Not Approved – User's credentials could not be verified by GCT Canada

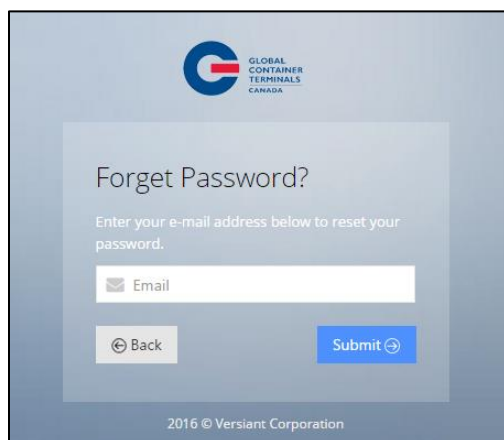

Retrieving a Password

To retrieve a forgotten password, select "Here" below Forgot your Password

The screenshot shows the login page for the GCT Canada system. At the top left is the logo for Global Container Terminals Canada. The main heading is "Login to your account". Below this are two input fields: "Username" and "Password". A blue "Login" button is positioned below the password field. A red rectangular box highlights the text "Forgot your password? No worries, click [Here](#) to reset your password." Below this, there is a link "Don't have an account, yet? Start Below.." and a "Register for:" section with a dropdown menu currently set to "GCT Canada Head Office". At the bottom of the page, it says "2016 © Versant Corporation".

Enter the email address associated to the User's account

The screenshot shows the "Forgot Password?" page. At the top left is the logo for Global Container Terminals Canada. The heading is "Forget Password?". Below the heading is the instruction "Enter your e-mail address below to reset your password." There is a single input field labeled "Email" with an envelope icon on the left. Below the input field are two buttons: a grey "Back" button with a left-pointing arrow and a blue "Submit" button with a right-pointing arrow. At the bottom of the page, it says "2016 © Versant Corporation".

A new password will be sent to the email address. Use the new password provided to log in

Trucker Dray Code Assignment

The Trucker Dray Code Assignment screen provides users with the ability to search unit dray statuses and unit trucking company assignments. Users have the ability to query multiple units by specific container number or by inbound vessel visits.

The screenshot shows the 'Trucker Dray Code Assignment' page in the Customer Service Portal. It features a search form with 'Container' and 'Vessel/Voyage' fields. Below the search form is a table titled 'Dray Codes by Container' with columns for Number, Location, Position, Cat, Stat, Sz/tp/Hc, Trucking Co, and Dray. A search result is shown for container number 85BU2161979.

Number	Location	Position	Cat	Stat	Sz/tp/Hc	Trucking Co	Dray
85BU2161979	YARD	Y-DLT-0083E1	IMPRT	FCL	20'GP/86	PATR	OFFSITE

To query unit dray statuses, enter Container Number(s) and select search. The query will return with a list of containers that will state whether the unit is setup for dray or not.

Customer Service Portal | Make a Payment | Lynx User

Trucker Dray Code Assignment

Home > Equipment > Trucker Dray Code Assignment

Container: Vessel/Voyage:

Enter Container Number(s). Separate Multiple Entries with a Comma.

Dray Codes by Container

Show: 10 entries Search:

Number	Location	Position	Cat	Stat	St/Tr/Ht	Trucking Co	Dray
CAJUB501823	YARD	Y.DLT.L412F1	IMPRT	FCL	40/GP/96	<input type="text"/>	OFFSITE
F5CU3821890	YARD	Y.DLT.L349G2	IMPRT	FCL	20/GP/86	<input type="text"/>	OFFSITE

To assign containers to a specific trucking company, enter Container Number(s) and select search. Under Trucking Co, there will be an option to assign a specific trucking company to the container.

Please note that this does not restrict the container to the entered trucking company. This field is strictly for Steamship Line internal record keeping only. It does not affect who can make the appointment or who can pick up the container.

Equipment Delivery Order

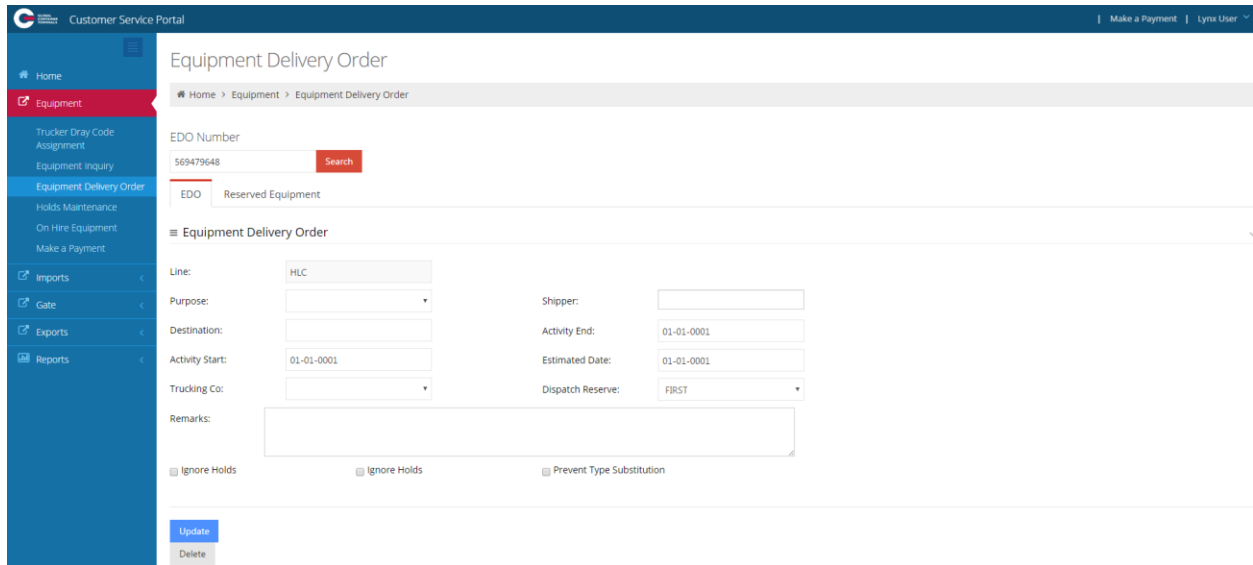

Users have the ability to create, update, and query Equipment Delivery Orders (EDOs) from this screen. Additionally, users can update EDO details, manage equipment, and reserve specific pieces of equipment against the EDO. **Please note Steamship Lines will not be able to create duplicate Equipment Delivery Order numbers.**

Creating a New Equipment Delivery Order

1. Enter new EDO number > Search
2. Error message "EDO Number ____ was not found" and the Create EDO menu will appear
3. Select Create EDO

Purpose

- Leave BLANK or select REPO, OFFHIRE, OFFSITE_REPAIR, or IFT. This field is for Steamship Line record keeping only and does not affect EDO.

Destination

- Leave BLANK or enter EDO Destination. This field is for Steamship Line record keeping only and does not affect EDO.

Activity Start

- Update to current date to restrict when equipment can be reserved against the EDO. Please note this *does not* restrict appointments or when EDO can be picked up. This only restricts in the Terminal Operating System when equipment can be reserved against the EDO. **If the default date is not changed and left at 0001-01-01, then the EDO will not be transferred to the Terminal Operating System correctly and will be deleted automatically 5 minutes after creation.**

Trucking Co

- Leave BLANK or enter Trucking Company. Please note this field is for internal Steamship Line record keeping only and does not affect EDO. It does not reserve the EDO to a specific trucking company.

Shipper

- Leave BLANK or enter Shipper information. This field is for internal Steamship Line record keeping only and does not affect the EDO.

Activity End

- Update to current date to restrict when equipment can be reserved against the EDO. Please note this *does not* restrict appointments or when EDO can be picked up. This only restricts in the Terminal Operating System when equipment can be reserved against the EDO. **If the default date is not changed and left at 0001-01-01, then the EDO will not be transferred to the Terminal Operating System correctly and will be deleted automatically 5 minutes after creation.**

Estimated Date

- Enter current date; this field is for internal Steamship Line record keeping only and does not affect EDO.

Dispatch Reserve

- Leave as Blank (Default) or;
- Select dispatch reserves FIRST or ONLY
- Please note: By selecting dispatch reserves FIRST or ONLY, deliveries at the gate will be dependent solely on the container's availability (ie, Yard Location). Charges may be applicable.

Ignore Holds

- You must click this box for reserved (specific) container EDOs (Note: only reserve one (1) container per EDO). Do not click this box for good order unreserved (non-specific container) EDOs.

Ignore Damages

- You must click this box for reserved (specific) container EDOs (Note: only reserve one (1) container per EDO). Do not click this box for good order unreserved (non-specific container) EDOs.
- Click this box for bad order unreserved (non-specific container) EDOs. For bad order containers you must contact GCT Operations Support prior to dispatching trucks.

Prevent Type Substitution

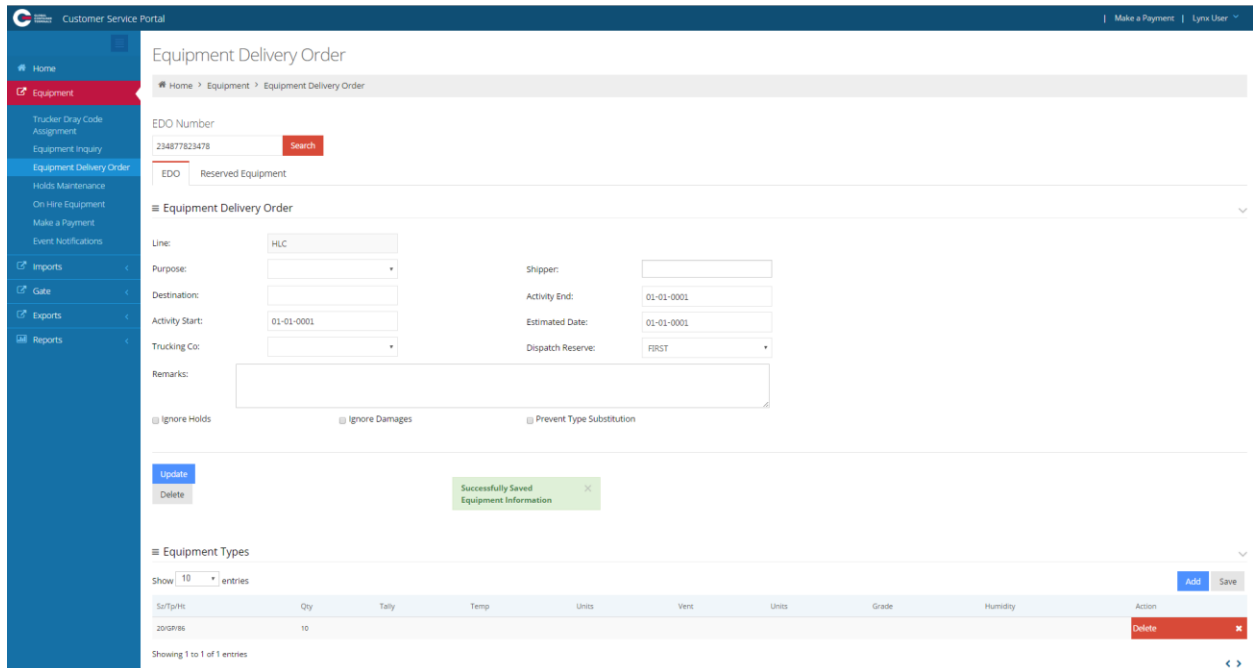

- You must click this box for reserved (specific) container EDOs (Note: only reserve one (1) container per EDO). Do not click this box for good order unreserved (non-specific container) EDOs.

Update Equipment Types on an EDO

Equipment > Equipment Delivery Order > Search for EDO Number > Equipment Types > Add > Select Size/Type/ Height (Sz/Tp/Ht) > Enter Quantity (Qty) > Save

Please note: Leave fields Temp, Units, Vent, Units, Grade, and Humidity blank unless a specific type of container with this description is being released on this EDO. For example; an EDO with Equipment Type Temp: 18, Units: C, Grade: Vented will *only* search for empty containers with Temp: 18, Units: C, Grade: Vented. With any of these fields entered, the terminal system will only look for empties with that specific equipment type.

To avoid any delays at the gate, please leave fields Temp, Units, Vent, Units, Grade, and Humidity blank unless the EDO is set up for reserving specific containers (ex. Hangers).

CONFIRM

Are you sure you want to delete this EDO?

Select 'Yes' to Delete. The Screen will return a clear state.

Select 'No' to return to the EDO.

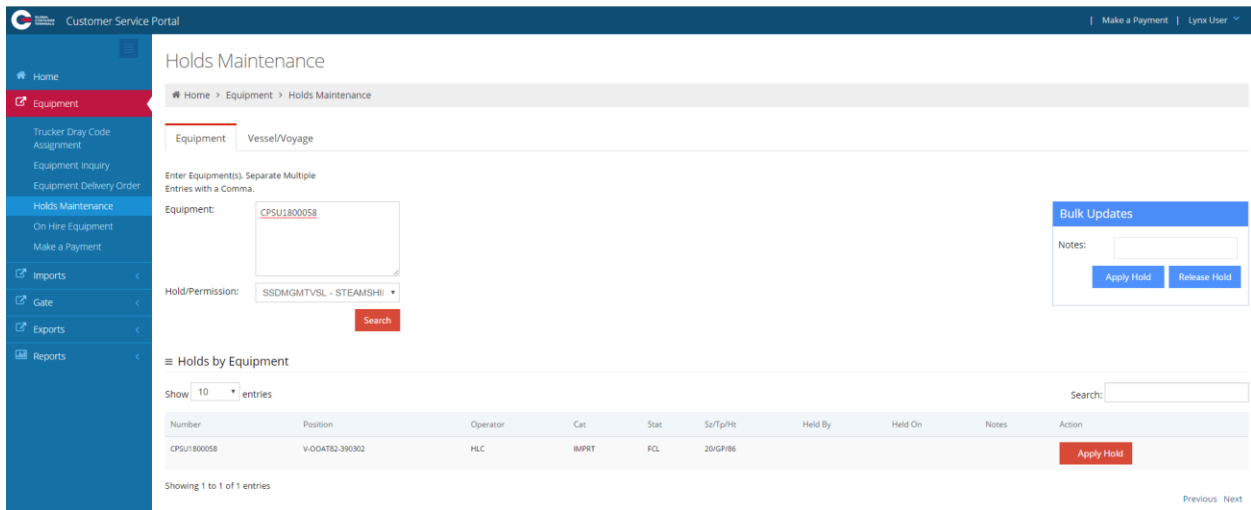

Holds Maintenance

Users have the ability to add holds, release holds, and grant permissions to specific units from the Holds Maintenance screen. Users simply enter the container number and a specific hold/permission. Based on the hold records against the unit, the user will be provided with an available action and general container details.

Update Holds per Equipment number

Equipment > Holds Maintenance > Equipment > Enter Equipment(s). Separate Multiple Entries with a Comma > Select Hold/Permission > Search > Enter Note > Apply / Remove Hold > Prompt will appear "Are you sure you want to Apply / Release Hold for container..." > OK

On Hire Equipment

From this screen, users have the ability to create container reference records. Additionally, users have the ability to update existing equipment records to reflect updated owner, ISO code, or weight information.

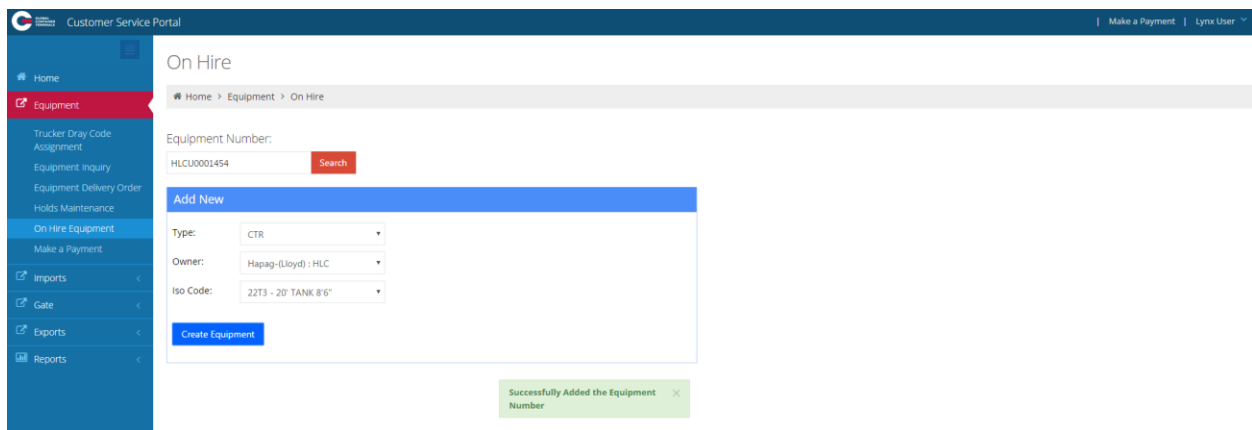

Creating a New Container

This step is for containers that are not in the GCT Deltaport terminal operating system.

Equipment > On Hire Equipment > Enter Equipment Number > Search > Message
 “Container number _____ was not found” > Add new > Enter Type, Owner, and ISO Code >
 Create Equipment

The screenshot shows the 'On Hire' page in the Customer Service Portal. The left sidebar contains navigation options: Home, Equipment (selected), Trucker Dray Code Assignment, Equipment Inquiry, Equipment Delivery Order, Holds Maintenance, On Hire Equipment, Make a Payment, Imports, Gate, Exports, and Reports. The main content area shows the 'On Hire' breadcrumb and a search bar with 'Equipment Number: HLCU0001454'. A red error message states 'Container number HLCU0001454 was not found'. Below the search bar is an 'Add New' form with fields for Type (CTR), Owner (Hapag-(Lloyd) : HLC), and Iso Code. A 'Create Equipment' button is at the bottom of the form.

This screenshot shows the 'On Hire' page after a successful equipment entry. The search bar still contains 'HLCU0001454'. The 'Add New' form now has 'Type: CTR', 'Owner: Hapag-(Lloyd) : HLC', and 'Iso Code: 22T3 - 20' TANK 8'6\". A green success message at the bottom right reads 'Successfully Added the Equipment Number'. The 'Create Equipment' button is still visible.

Customer Service Portal | Make a Payment | Lynx User

Home > Equipment > On Hire

Equipment Number:
HLCU0001454

Type:	CTR
Owner:	Hapag-Lloyd : HLC
Iso Code:	22T3 - 20' TANK 8'6"

Safe Weight	24000.0 KG
Tare Weight	1900.0 KG

VGM Update

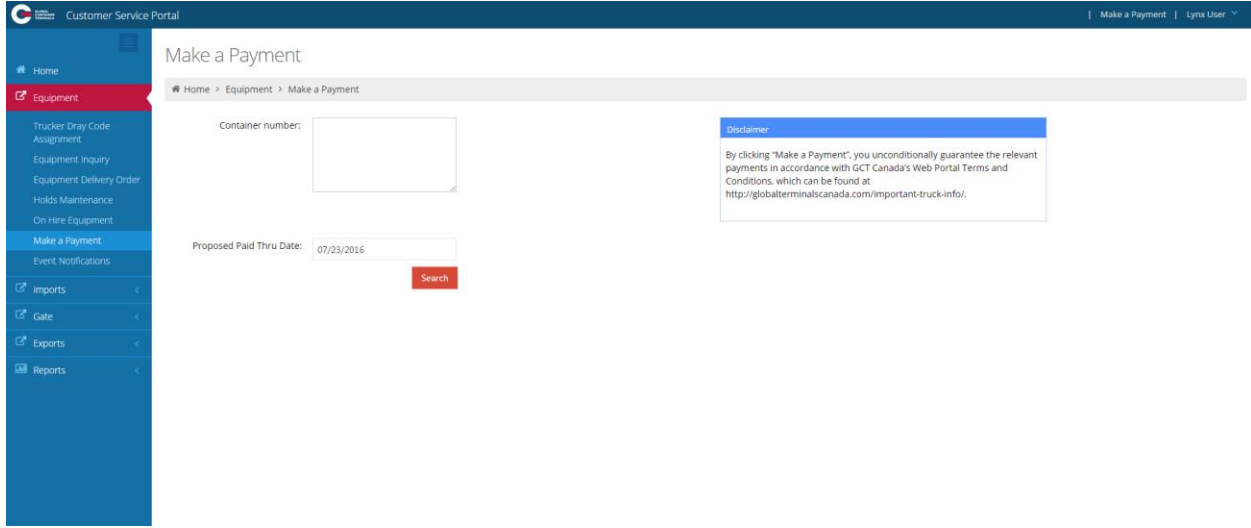

Similar to other screens throughout Lynx, users will have the option to query single or multiple container records. Upon entering the container number(s), the user will press the Search button which will perform a query of the Terminal Operating System (TOS). If the container number exists in the TOS, then the container's Verified Gross Weight (VGM) and its associated units of measure will be returned to the user. If the container does not exist in the TOS (no unit facility visit in N4), then the container record will display on the screen with blank values for the Verified Gross Weight and units.

Number	Weight	Unit of Measure
GATU8796188		KG
HLBU1328766		KG
HLXU5035845		KG
HLXU5155898	29800.0	KG

HLXU8575256	29800.0	KG
SEGU5684461	29800.0	KG
TCLU4764303	29800.0	KG
TCKU7687846	29600.0	KG
TCKU7733936		KG

Make a Payment

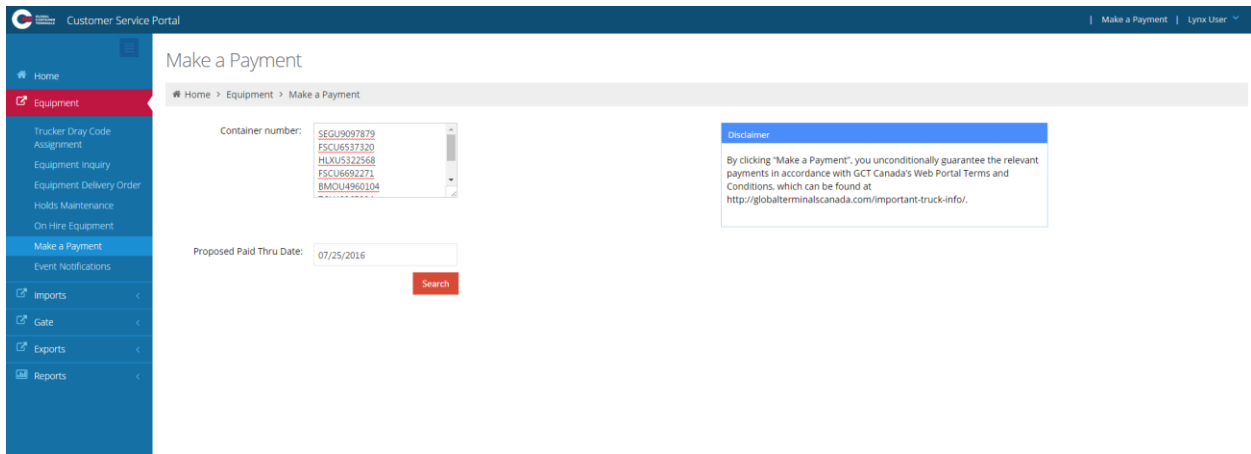

Users have the ability to pay for demurrage in this screen. Users can enter in the date they would like to pick up a container, and can pay outstanding storages charges for that date.

Please note: By clicking “Make a Payment,” you unconditionally guarantee the relevant payments in accordance with GCT Canada’s Web Portal Terms and Conditions, which can be found at <http://globalterminalsCanada.com/important-truck-info/>

To Make a Payment:

Equipment > Make a Payment > Enter Container Number(s). Separate Multiple Entries with a Comma > Enter Proposed Paid Thru Date > Search

Show entries Search:

Container Notifications

This screen allows Users to monitor selected containers that are not available for pick-up.

To set up a Container for Container Notifications:

Imports > Import Release Inquiry > Container > Enter Container Number(s). Separate Multiple Entries with a Comma > Search

To set up a Bill of Lading for Container Notifications:

Imports > Import Release Inquiry > Container > Enter Bill of Lading(s). Separate Multiple Entries with a Comma > Search

For Containers or Bill of Ladings that populate the Import Release Inquiry page and are not available for pick-up, a Notify Me button will appear on the right-hand side.

Customer Service Portal | Make a Payment | Lynx User

Home > Imports > Container Notifications

Container notifications are automatically updated every 6 hours. You may click the 'Refresh' button at any time to check the availability of your containers.

Exports

Booking Inquiry

This screen allows users to query, update, and create export bookings. Users have the ability to update booking routing details and hazardous details.

Create a new Booking

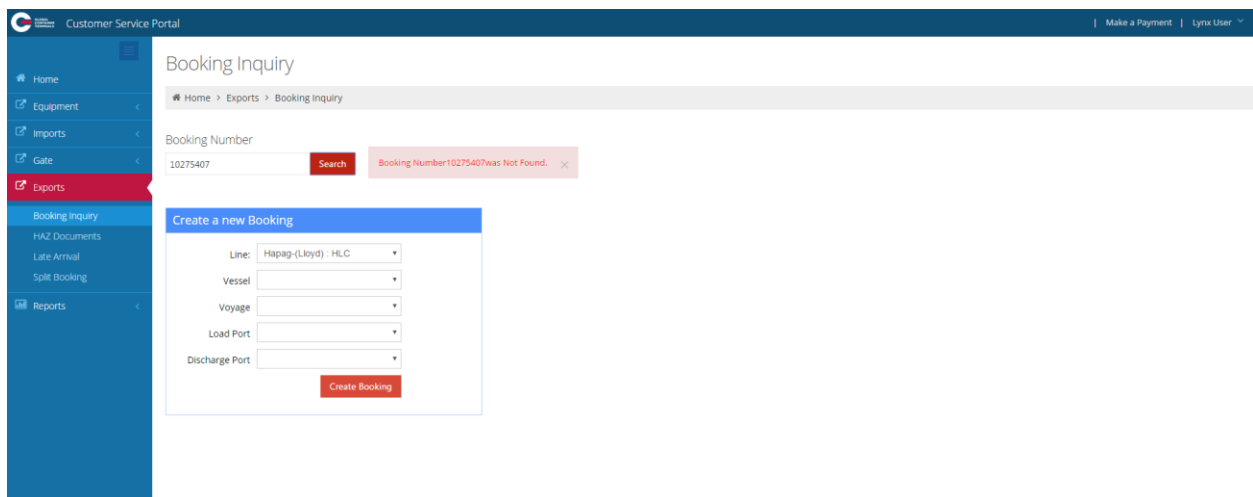

Exports > Booking Inquiry > Booking Number > Search > Create a new Booking > Vessel > Voyage > Load Port: Vancouver > Discharge Port > Create Booking

The Destination, Shipper, Consignee, and Customer Ref # fields are for the user to use as records, if desired. Please note these fields are not used by the terminal.

Special Stow, if required please continue to contact the vessel's Port Captain.

Check Hazardous if Booking contains Hazardous Container(s) > Update Booking

GCT Canada approved Late Gates will appear on the Remarks field.

Split Booking

Note: After Vessel Cut-off date/ time, bookings will continue to split, however all containers associated will remain on the cut-off vessel. A pop up message will note 'Successfully Updated', referring to the booking number. To view changes to the containers associated to the booking review the report 'Booking Discrepancy' for both the vessel the booking roll from as well as the vessel the booking rolled to.

This screen provides users the ability to change the units associated to the booking. Users query a booking, select the units they would like to 'roll' to a new booking, and move the units onto the new booking.

Exports > Split Booking > Booking From # > Booking Number > Search > Booking To # > Booking Number > Search > Select Containers to Split > Move > OK

The screenshot displays the 'Split Booking' page within the 'Customer Service Portal'. The page includes a navigation sidebar on the left with options like Home, Equipment, Imports, Gate, Exports, Booking Inquiry, HAZ Documents, Late Arrival, Split Booking, and Reports. The main content area features search fields for 'Booking From #' and 'Booking To #', each with a red 'Search' button. Below these are input fields for 'Vessel:', 'Voyage:', and 'Port of Discharge:'. A blue 'Select All' button is positioned above the first table. Two tables are shown, each with columns for 'Number', 'Category', 'Sz/Tp/Ht', and 'Position'. A blue 'Move >' button is located between the two tables.

Equipment Inventory

The Yard Inventory Report allows the Steamship Line to look up the current snapshot of the cargo they have on dock, vessel, or rail. To query the data, first select “container” under the Equipment Class category. Next, pick the Category (Import, Export, or Empty), the Status (Empty or Full), and the Equipment Type (20’, 40’, 45’). Finally, select the Location (Yard, Vessel, or Rail) and click on the View Report button on the far-right hand side.

In the below example, the search is set up to look for all empty 20’ containers in the yard.

Yard Inventory

Home > Reports > Yard Inventory

Shipping Line(s)	<input type="text"/>	Equipment Class	Container
Category	Empty Storage	Status	Empty
Equipment Type	-All 20s-	Location	Yard

As another example, this search is set up to look for all full import containers in our yard which can be used to find long dwelling containers. Simply export the report to Excel by clicking on  and then filter the Excel data by the Dwell column to see your long dwell imports.

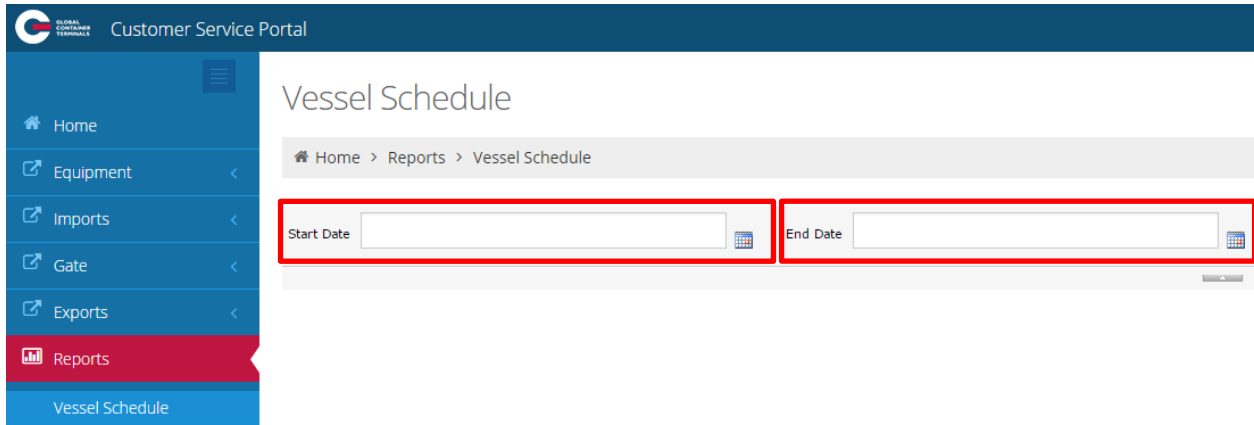

Yard Inventory

Home > Reports > Yard Inventory

Shipping Line(s)	<input type="text"/>	Equipment Class	Container
Category	Import	Status	Full
Equipment Type	-ALL-	Location	Yard

Vessel Schedule

The Vessel Schedule Report allows the Steamship Line to look up the GCT Deltaport Vessel Schedule from a set start and end date. The user can query the vessel schedule using their desired Start and End Date as parameters.

Additionally, users have the ability to export the report into a variety of formats (PDF, Excel, and TIFF) to allow greater flexibility with the report data. The export button is found right below the “End Date” parameter after the user submits the query.

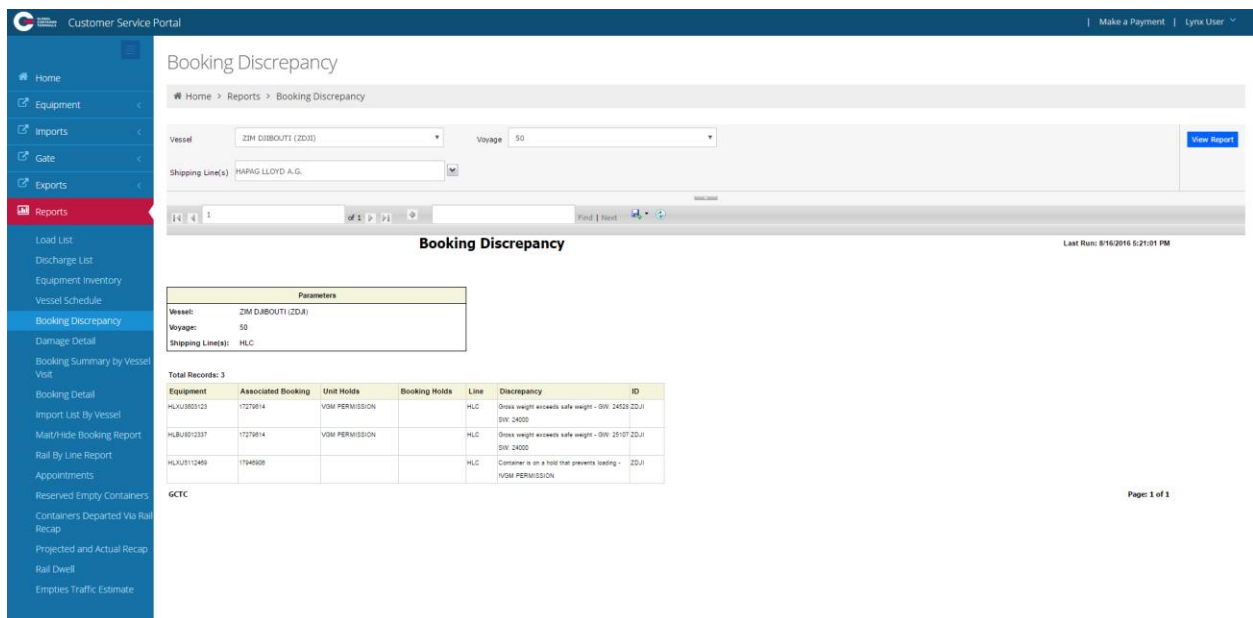

Booking Discrepancy

The Booking Discrepancy Report allows the Steamship Line to look up booking discrepancies related to the specific vessel.

Discrepancies include:

- Unit has an unreleased Hold/Permission that prevents a UNIT_LOAD event
- Unit's Gross Weight exceeds the unit's Safe Weight
- Unit has a Load Port that is not the Home Port (Vancouver)
- List of Containers where Container and Booking Port of Discharge Doesn't Match
- List of Containers that have a Different Category then the Booking's Category

Booking Discrepancy Last Run: 8/16/2016 5:21:01 PM

Parameters

Vessel: ZIM DIBOUTI (ZDJI)
 Voyage: 50
 Shipping Line(s): HLC

Import List by Vessel

The Import List by Vessel Report allows the Steamship Line to pull up import containers related to a specific vessel. Steamship Lines are encouraged to run this report for import vessels to validate that the EDI was sent correctly for delivery instructions.

Other notable columns are:

- Commodity Weight
- Current Location
- Active Holds
- Delivery Instructions
- Hazardous Information
- OOG Status
- Customs Hold
- Line Hold

Malt/Hide Booking Report

The Malt/Hide Booking Report allows the Steamship Line to lookup all active bookings with missing commodity codes. Steamship Lines are encouraged to review and update the bookings on this report at least once every other day. This ensures all bookings are up-to-date and export containers can be readily planned to outbound vessels.

To query the data, select the Malt/Hide Booking Report option and the report will be generated automatically.

The screenshot shows the 'Malt/Hide Booking Report' interface in the Customer Service Portal. The report is for shipping line 'HAPAG LLOYD A.G.' and was last run on 10/23/2016 at 5:59:59 PM. The report displays a table with the following columns: Booking, Vessel, Voyage, Commodity, and Commodity Description. The 'Commodity' column is mostly empty, indicating missing commodity codes. The report title is 'Malt/Hide Booking Report' and it shows 'Total Records: 1579'.

Booking	Vessel	Voyage	Commodity	Commodity Description
1024333	ACHD	20		MALT
1024714	ACHD	20	MDW

Additionally, users have the ability to export the report into a variety of formats (PDF, Excel, and TIFF) to allow greater flexibility with the report data. The export button is found below the "Class" parameter after the user submits the query.

Appointments

The Appointments Report allows the Steamship Line to query for any and all appointment types associated with their cargo. The Steamship Line will be able to filter by pick-up and drop-off appointments, trucking company, vessel, and voyage. In addition, they will be able to set the start and end date as parameters for the search.

To query the data, select the desired Start and End Date, the Appointment Type, Trucking Company, and the Vessel and Voyage number. Select the View Report button on the far right hand side.
